

GoDaddy.com DNS Change Instructions

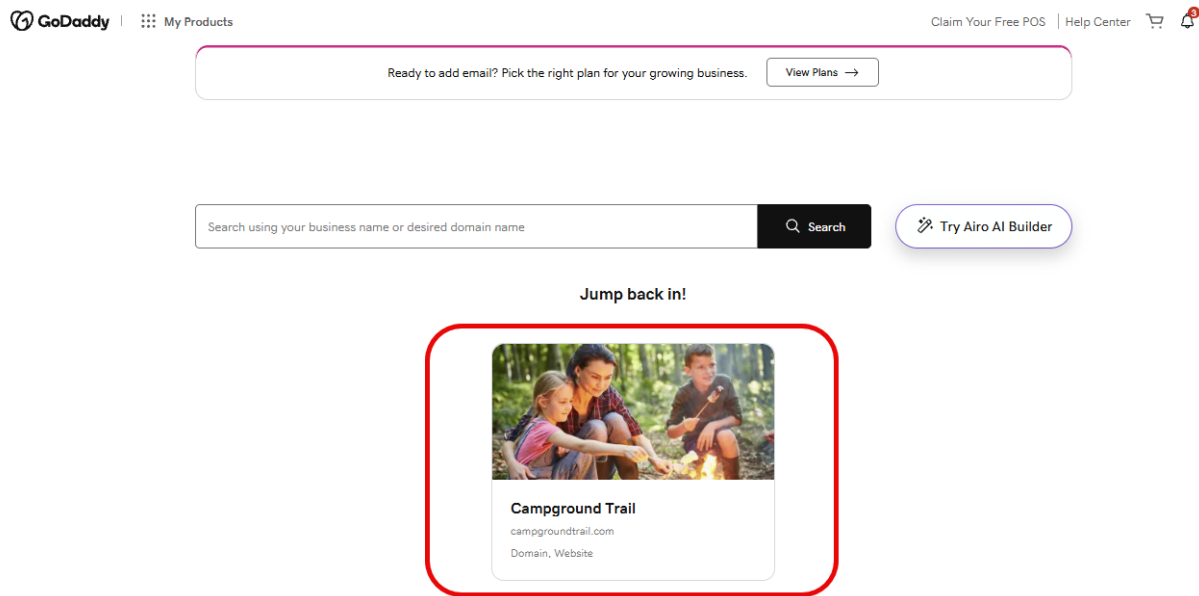

Login to your GoDaddy.com account at www.Godaddy.com.

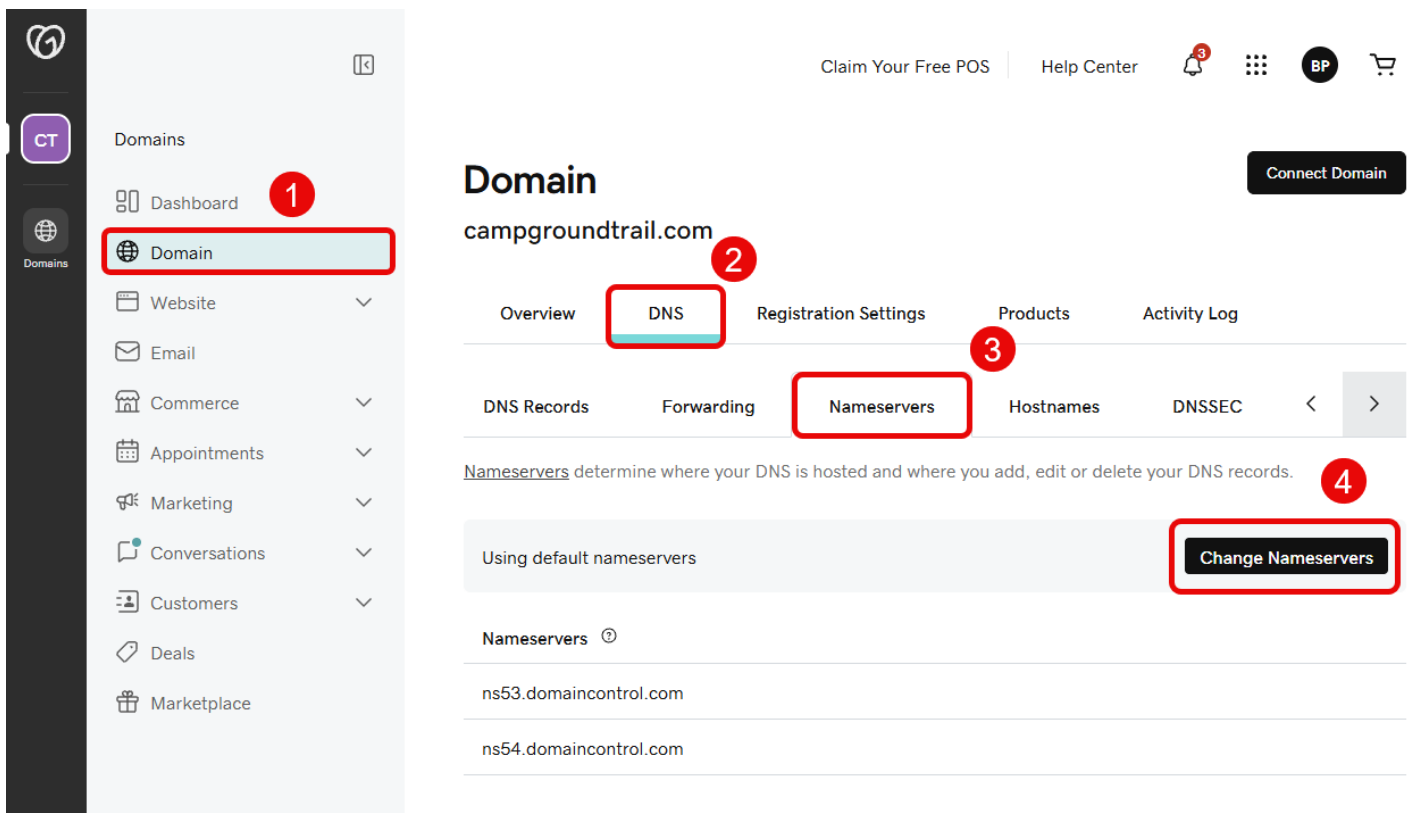

Enter your login credentials:

A screenshot of the GoDaddy 'Sign in' page. The page has a white background with the GoDaddy logo at the top left. Below the logo is the heading 'Sign in'. Underneath the heading is a link for 'New to GoDaddy? Create an account'. A light gray box contains a disclaimer: 'By clicking "Sign in" below, you agree to GoDaddy's Universal Terms of Service (updated Jun 3, 2026) and Privacy Policy.' Below this is a form with two input fields. The first field is labeled 'Username or Customer #' and contains the text '1593443029'. The second field is labeled 'Password' and contains a series of dots. Both input fields are highlighted with a red box. To the right of the first field is a 'Use email' link, and to the right of the second field is a 'Show' link. Below the input fields is a checkbox with a green checkmark and the text 'Keep me signed in on this device'. Below the checkbox is a large black button with the text 'Sign in', which is highlighted with a red box. Below the button is the text 'or sign in with'. At the bottom of the page are four social media icons: Amazon, Apple, Facebook, and Google. At the very bottom is a link: 'Need to find your username or your password?'.

Select your domain name. If you have more than one domain registered at GoDaddy, you will see multiple here:

- 1) In the left menu, select “Domain”
- 2) Select “DNS” in the first horizontal menu
- 3) Select “Nameservers” in the second horizontal menu
- 4) Select “Change Nameservers” in the

An “Edit nameservers” dialog box pops up and you can change your DNS Servers there.

- 1) Select “I’ll use my own nameservers”
- 2) Enter Name Servers **(PLEASE CHECK WITH US TO CONFIRM THE NAME SERVERS ARE THE SAME AS BELOW)**
Email us at admin@sunsphere.net

brodie.ns.cloudflare.com

lia.ns.cloudflare.com

- 3) Click Save

Click “Continue” on the subsequent dialog box that pops up.

You are finished

If you've recently visited your domain in a web browser, your computer's DNS cache may need clearing before you can see your website at its new location. This will be done after waiting a while or after rebooting.

If you have problems or questions, please call us at (256) 234-4838 for assistance.
